

ANOTHER GAME.

Vigilant Foot Ball Team Issues Challenge to the Tigers.

GAME ON A NEUTRAL GRIDIRON

In One of the Conditions of the Vigilant Challenge—Saturday's Exciting Game Resulted in no Score on Either Side—The South Side Bowling League Averages. This Week's Bowling Schedules—Other News in the Field of Sport and Athletics.

Sporting Editor of the Intelligencer: Dear Sir:—We will play with the Tigers for any amount at any place outside of fifty miles from Wheeling. We will put up forfeit with you. VIGILANT FOOT BALL TEAM. Wheeling, December 1.

The challenge printed above was received at the Intelligencer office last night, and is the result of the unsatisfactory ending of the game on Saturday between the Vigilants and the Tigers, when the score was 0 to 0. The Vigilants believe that they have a better team than the Tigers and are anxious to demonstrate it, but are not satisfied to have the game take place in this vicinity. To a disinterested person it seems unnecessary that the game should take place at Pittsburgh or at any place outside the Wheeling state grounds. The management of the two teams made a big mistake, Saturday, in not engaging a detail of police to keep the crowd out of the limits of the gridiron. Had this been done there would have been none of the unsatisfactory crowding that spoiled the game for nine-tenths of the spectators. In addition with a squad of police on hand, the future game, if one shall be played, could take place here in Wheeling. The rivalry element can easily be kept in check when a line of blue coats is in the immediate neighborhood. By all means let's have another game and a decision of local foot ball supremacy.

SATURDAY'S GAME

The Vigilants and Tigers Play an Exciting Game Saturday.

Saturday afternoon the Wheeling Tigers and Martin's Ferry Vigilants played a game of foot ball to decide the foot ball supremacy of this neighborhood. The game was hotly contested from start to finish, but the bad feeling that had been stirred up resulted in some pretty rough playing, "slugging," that is not necessary and if anything injures the game in the estimation of the public. During the first half the ball was never at any time dangerously near either goal. In the second half, however, the Vigilants did the better work and had the leather in Tiger territory most of the time. During a lull in the proceedings, when the referee had called time, so it was claimed, Brownlee for the Vigilants secured the ball and ran unopposed for a touch-down. This was not allowed, for the reason mentioned. Brownlee, Frye and Flacus, of the Washington and Jefferson team played with Vigilants.

"A" Defeated "B."

Saturday evening at the Fette bowling alleys, on the South Side, teams representing "A" and "B" mills of the LaBelle, bowled and the following scores: A—76, 77, 718. B—674, 704, 693.

Secretary William Fette, of the South Side Bowling League, has compiled the averages of the work of the players of the several teams of that league for the first seven weeks of the present championship season. Fette, himself, has the high individual average, 227, and the LaBelle made the best team score, 774. The averages are given below:

Harvest—Fette, (21), 147; Baumann, (21), 144; Gaughan, (12), 142; Spedel, (21), 140; Kemple, (15), 142; Rahr, (21), 141; Yenke, (21), 123; average 144. Mail Pouch—Frazz, (21), 135; Stripling, (15), 132; Scarbarow, (15), 122; Ebeling, (21), 141; Scheelke, (21), 147; Dickmeyer, (15), 143; Kelsing, (21), 126; average 132. Mozart—Knoke, (21), 153; Schumacher, (9), 113; Shanley, (21), 137; Marshner, (15), 141; Schroebe, (15), 135; Handlan, (21), 115; Horstman, (9), 125; Beckendorf, (21), 115; Roth, (3), 125; average, 141. LaBelle—Seamon, (21), 141; A. Baker, (15), 140; Travis, (12), 141; Barver, (9), 131; Ross, (3), 127; average, 138. Apollo—Wagner, (21), 126; Brett, (15), 140; Wasmuth, (15), 126; Foy, (6), 127; Hungeamer, (9), 123; Tucker, (12), 122; Jackson, (15), 129; Rice, (3), 107; Danenberg, (15), 136; Hofreuter, (6), 123; average, 124. Standard—W. Bransch, (18), 131; Balzer, (21), 134; Burkhardt, (15), 125; Plankey, (9), 118; Rolf, (21), 127; Arndt, (12), 122; Craver, (9), 121; Hall, (6), 141; F. Bransch, (6), 148; McAndrews, (6), 127; average, 122. Stacker—Stocker, (21), 125; Miller, (18), 114; Harphrer, (6), 115; Schubert, (18), 124; Helsten, (21), 126; Wessel, (12), 122; Nolte, (12), 129; James Wagner, (3), 91; Wlenke, (3), 103; average, 125. Novice—Ebeling, (18), 125; G. Zimmer, (21), 129; Reed, (9), 115; Hores, (15), 121; C. Zimmer, (18), 114; Schnauber, (13), 127; Kreutzer, (6), 114; Medick, (3), 115; McKinley, (6), 121; Clark, (6), 121; average, 125.

The schedule for this week in the South Side Bowling League is as follows: Monday, Mozart vs. Mail Pouch; Tuesday, LaBelle vs. Harvest; Thursday, Apollo vs. Standard; Friday, Orient vs. Apollo.

League schedule—Tuesday, Nameless vs. From Club; Wednesday, Brownlee vs. Beabout; Thursday, H. C. Richards vs. Independents; Friday, Apollo vs. Musce.

Dates Won Thru.

Saturday evening the Dantes and Beabouts rolled three postponed games and the former won all on comfortable margins. Dantes are rolling great ball and seem the most dangerous opponents of the Nameless crowd.

THE "MUSKET" STOCK

To be Imported Into America—Artillery Coming to San Francisco.

Word has been received that the twelve-year-old horse Artillery, a half brother to Carbine, who was purchased last summer by the Duke of Portland, is shortly to be sent to this country. Artillery is owned by Mr. W. T. Parsons, of Christ church, N. Z. He was a good race horse, though not in the same class as Carbine. He will be shipped to San Francisco and sold there at auction. Artillery was originally imported to Australia from England. He was thought at the time by the shrewd Britishers that he was of little or no account, but he proved to be the sire of so many great winners that there has since been a demand both in England and this country for the Musket blood. Mr. J. B. Haggin imported Maxim,

one of Musket's sons, about three years ago. Maxim, now dead, and Miss Maxim, his high class filly, were the first of his get to race here. Maxim got cast in his stall last spring and received injury from which he died. Artillery, if he arrives safely, will be the only Musket stallion in America.

TOWBOAT DISASTER.

The Advance Together With Eleven Barges of Coal Sink Below Ravenswood. The Ed Roberts and Other Boats Lose Their Barges at the Same Place.

Last evening a special dispatch to the Intelligencer from Parkersburg, brought the information and somewhat meager details of another disaster to the big Pittsburgh coal fleet now proceeding down the river to the south on a scant stage of water which is decreasing hourly. The disaster is the worst that has yet happened to the fleet and occurred at Sand creek dike just below Ravenswood, W. Va., at an early hour yesterday morning. The Advance with fourteen barges was the worst involved in the wreck. It seems that this steamer became unmanageable and went on the government dike, sinking eleven barges of coal and herself going to the bottom. Fortunately the disaster did not take place in the channel which is left open so that the remainder of the coal fleet proceeded without much delay. The Ed Roberts, which was following the Advance, sent two barges aground just below the big wreck, but succeeded in saving the balance of her tow; the two grounded barges were abandoned. The entire coal fleet is said to be having trouble between Ravenswood and Hartford City, several barges being reported as grounded. A grounded barge on the falling river almost invariably means abandonment.

TWO OVERCOATS STOLEN.

A Hall Thief Gets Away with Two Very Fine Garments.

Last evening a sneak thief entered the hall of Mr. G. Ed Mendel's residence, on Thirteenth street, opposite the Cathedral, and stole two fine overcoats. The family and servants were all in distant parts of the house at the time, and no clue to the thief was obtained up to a late hour last night, though the police were informed as soon as the loss was discovered. One of the coats was Mr. Mendel's, and the other belonged to Lieut. Van Dusen, the military instructor at Lively Institute, who was calling at the house at the time. His coat was of English manufacture, and can be readily identified, as the silk lining is extended over the outside of the lapel. It is of dark gray mixed color, while Mr. Mendel's was a coat of light weight and dark gray color.

For Stealing a Coat.

Saturday evening Lieut. Ingram arrested J. N. Wilson and William Lambert on the charge of stealing a heavy beaver overcoat from Rev. Mr. Haas, of the South Side. The men were taken to headquarters, where it was found one of them had the stolen coat on. While sitting in the office of Chief Bennett, the fellow wearing the coat deliberately chewed and tore the binding of the lapels and cuffs until the garment had been very seriously damaged. The men were taken before Justice Phillips and sent to jail for a hearing this afternoon.

IN THE CIRCUIT COURT.

Considerable Business of Interest Transacted at Saturday's Session.

Saturday was a very busy day in the circuit courts. Before Judge Pauli, in the case of August Reuter vs. J. T. Sullivan, et al., the demurrer was argued and the matter continued until December 7. In the case of John G. Haberfeld vs. city, the demurrer of the defendant was overruled, and defendant was given until December 7 to offer special pleas.

The case of John Blaney vs. U. M. Hervey et al., was dismissed. Before Judge Campbell, in the case of Laura Stephens vs. Acme Portland Cement Co., leave was given plaintiff to amend the summons, on payment of costs up to this time.

In the case of Maria McGannon vs. city, the demurrer of defendant was overruled and defendant was given leave to file special pleas before December 14.

In the case of A. S. Bell, et al. vs. Frank Henderson, et al., the defendant moved for a more specific bill of particulars. The matter was argued and submitted.

In the case of the Mayer Poultry and Game Company vs. Standard and Jefferson Insurance Companies, the demurrers to the declaration were argued and submitted.

In the case of W. H. Chapman vs. J. W. Belts & Sons' Company, the defendants filed bill of set off, and tendered seven special pleas. These were objected to, argued, and submitted to the court.

THE BARBERS ORGANIZE

And Will Endeavor to Have Sunday Work Discontinued.

Yesterday afternoon at Schenck's hall, on the South Side, the barbers of Wheeling held a well attended meeting for the purpose of taking preliminary steps toward forming a union organization. Another meeting will be held in a few days, at which a permanent organization will be effected and officers of the union elected. It is the intention of the barbers to make a earnest effort to have Sunday work in local barber shops discontinued.

The Henry Oil Company's No. 9 Hoffman is in the pay sand and is good for 35 barrels a day. Their No. 7 rig is being moved and No. 8 is 1,500 feet deep.

Bettman & Watson's No. 1 J. Lehlri has reached the sand and will make 20 barrel producer. Their No. 2 rig, on the same farm, is up.

The Carter Oil Company's No. 9 Bannan is in the sand, but its production cannot yet be estimated. Their No. 1 Bush is 1,600 feet deep and No. 5 is 1,500 feet deep.

The Victor Oil Company's Reelwell No. 4 is 1,500 feet deep and has a fishing job. Their No. 7 is 600 feet deep. On the J. Gorman farm this company has a fishing job at 1,000 feet. The rigs are up for their P. Kearns No. 3 and J. Gorman No. 4.

J. T. Jones & Co.'s No. 2 G. Hill is 600 feet deep. The same company's No. 1 Gorrell and No. 1 Archer have the rigs up.

Will Drill at Viola.

A committee of the North Penn Oil Company, composed of Messrs. Haller, Clator and McKown, has selected a site for the first well on the company's leased territory. It will be close to Viola, on the Wheeling creek.

The hauling of the lumber for the derrick will begin to-day, and the work of drilling will be pushed as rapidly as possible.

TO-DAY ONLY.

Come and see the \$10 Coat L. S. Good & Co. are selling for \$5.

Have you seen "The New General" now on exhibition at the Intelligencer building? It is a new and most educational work of its kind ever offered to the public. Supplied by the Intelligencer in ten bound parts, at 10 cents per part.

ONE Minute Cough Cure is rightly named. It affords instant relief from suffering when afflicted with a severe cough or cold. It acts on the throat, breaks up the phlegm and gives immediate relief. Local Drug Co., Wheeling, W. Va., D. P. Peabody, Benwood, and Bowie & Co., Bridgeport, O.

THE TROUBLE JUST BEGUN

Over the Schmidt Gambling Case at Hellairo—Sensational Proceedings.

The troubles over the gambling case at Hellairo seem to have scarcely settled well started. Emil Schmidt was charged by R. G. McLaughy with permitting gambling in his place of business. The charge was made under the statute. When Schmidt appeared the explanation was made to him that the limit of fine provided under the statute was \$200 and a jail sentence might accompany that, while under the ordinance the maximum fine was \$400. Schmidt would not plead guilty under the ordinance, and the mayor proceeded to change the affidavit so that he would have jurisdiction.

When it was changed Schmidt pleaded guilty and the mayor fined him \$40 and costs. He refused to pay it and the mayor ordered him locked up. Saturday morning his attorney applied to the probate court for a writ of habeas corpus. The body of Schmidt, along with the affidavit to show why he was held, was taken before the court. The affidavit did not allege that the offense charged had been committed in Hellairo, and the probate court had no alternative but to dismiss Schmidt.

He was dismissed and returned to this city. By notice to the mayor he was taken before Justice Mason on a charge under the statute and was bound over to court.

To add to the confusion and the feeling stirred up by these cases, late Saturday McLaughy was about Schmidt's place and had been drinking, and the two came to blows, resulting in McLaughy having a badly discolored eye. It seems that the end of the troubles is not in sight, as more suits are now talked of.

THE SISTERSVILLE REGION.

Notes of the Operations in the Different Down-the-River Fields.

There is considerable excitement in all circles about the run, Roesser & Downing being drilled in a well on the Holden farm and Thursday night, at only a few feet in the sand, put fifteen barrels in the tank. There is a probability of its being a gusher when drilled deeper. This well opens an entirely new field.

The Summit No. 4 at Eight Mile is due in the sand the fore part of the week. Malory & Co. will begin drilling their Brown No. 3, the first of this week.

Hensel No. 1, of the Shoestring Oil Company, has struck a pay streak and will make a 50 barrel pumpjack. It extends the Deist pool to the northwest.

At Belmont, Johnson's well, on the Renecuter farm, is overdue.

On Broad run, Reese No. 1, on the Emling farm, is due in the sand the first of this week. The lost tools have been removed.

The rig is up and the machinery in place for a well on the Cook farm at the mouth of Henry Camp run. The location is considered good for a producer in the Cow run sand.

The Oxford Oil Company's Keating well, on the Meritt farm, on Middle Island, is in the sand a considerable distance and is full of salt water.

Robinson, Sterling, Craig & Co. have a location on the Grim farm close to the Philadelphia Company's duster. Two dry holes have been drilled on this farm and this new well will pretty thoroughly define the field.

At Waverly, one and one-half miles, 1,500 feet back from the Ohio river on Calf run, the "Preachers" well is producing considerable black oil from the Elk Injun sand.

The Hugus, on Middle Island, was tubed yesterday. Those who are disinterested are of the opinion that this will be only a small well, as the sand is not of the best sort.

The Goddard well has a fishing job on hand near the top of the sand.

The Bridgeport Oil and Gas Company will put in the 12-inch casing in their well on the Hill farm at Archer's Fork to-day.

There are several wells of an important character on Indian creek. Tyler and Church, et al., should be in the sand, but they have been delayed with trouble with the casing.

W. H. Reese has sold his interest in the gasser on the school house lot to J. E. Haskel.

Wolfe No. 3, of McCoy & Broadwater is 500 feet deep.

The Carter Oil Company, on the Tickney farm, has put in the 6 1/2 inch casing and should complete the well in a week or ten days.

Johnson, Seldon & Co. have commenced spudding at their well on the E. N. Cooke farm, at the mouth of Henry Camp run, on French creek.

Eureka still continues to be the center of activity. The Union Oil Company has completed the rig for their Ruckman No. 1, the rig for the Kester well is under way; Braden & Co. have three rigs up on the Ed. Hammett, A. Ruckman and Kester farms respectively.

Roe & Gorham have a rig completed on the Ed. Hammett and the company's Taggart, on the South Penn. Oil Company has a rig under way; Gorland & Hays are also starting a rig on the W. E. Hammett. At the Big Jim, on the Hammett farm, the 6 1/2 inch casing was put in on Thursday and the cementing out was commenced on Friday. The well had caved in a distance of 60 feet and on Saturday afternoon it was thought to be within a few feet of the bottom. This cave will necessitate drilling the well deeper.

William Graham's well near the fork of Cow run above Schultz is 1,500 feet deep and should reach the Injun sand by the middle of this week.

The well on the Stricker farm on Whiskey creek in the Cairo field, will be drilled in the latter part of this week. The casing, which was pulled and rimmed down on account of a cave, has been put in again and drilling proceeded with.

Lavenport No. 10 of the Fisher Oil Company is steadily increasing its production and is now making considerably more than 100 barrels a day.

The Henry Oil Company's No. 9 Hoffman is in the pay sand and is good for 35 barrels a day. Their No. 7 rig is being moved and No. 8 is 1,500 feet deep.

Bettman & Watson's No. 1 J. Lehlri has reached the sand and will make 20 barrel producer. Their No. 2 rig, on the same farm, is up.

The Carter Oil Company's No. 9 Bannan is in the sand, but its production cannot yet be estimated. Their No. 1 Bush is 1,600 feet deep and No. 5 is 1,500 feet deep.

The Victor Oil Company's Reelwell No. 4 is 1,500 feet deep and has a fishing job. Their No. 7 is 600 feet deep. On the J. Gorman farm this company has a fishing job at 1,000 feet. The rigs are up for their P. Kearns No. 3 and J. Gorman No. 4.

J. T. Jones & Co.'s No. 2 G. Hill is 600 feet deep. The same company's No. 1 Gorrell and No. 1 Archer have the rigs up.

Will Drill at Viola.

A committee of the North Penn Oil Company, composed of Messrs. Haller, Clator and McKown, has selected a site for the first well on the company's leased territory. It will be close to Viola, on the Wheeling creek.

The hauling of the lumber for the derrick will begin to-day, and the work of drilling will be pushed as rapidly as possible.
